| We have just received another request from the Morgan-Schmitt Senate Select Committee on Ethics Subcommittee regarding the SSCI oil study leak. You will recall that [redacted] did considerable work on this before he left. The Subcommittee is now focusing on the 25 Dec 77 Seymour Hersh article in the New York Times. A copy of that article along with the Subcommittee's latest list of questions is attached. | | | | | |
| Please note that the Foreign Economic Policy Subcommittee referred to is a Subcommittee of the Senate Foreign Relations Committee. As I recall, the staff members mentioned in question 1 were Jerome Levinson and Ira Nordlicht. | | | | | |
| Could you please look at these questions and provide whatever information you can. My apologies for inflicting this upon you. I will be out Monday and Tuesday. I will be in touch with you later in the week. | | | | | |
